

First Planning Workshop

We plan to hold a series of workshops in various countries of participants for smooth coordination and operation of this multi-lateral, multi-year project.

1. Venue:

Polytechnic Institute of New York University, Brooklyn, New York

2. Date:

One month after funding is secured.

3. Objectives of Workshop:

The following subjects will be discussed in as much detail as possible;

- a. Introduction of the GEWS project,
- b. Careful definition of the GEWS project, including the definition of sustainability (by all participants),
- c. Each participant of the GEWS project explains their contribution to the project, as describing selected simulation models of various methodologies,
- d. Finding a legitimate problem owner and facilitators for the energy problem of relevant regions,
- e. Discussions on designing databases through which pertinent info will be interchanged among participating simulation models – even by narrow band Internet,
- f. Planning construction of a prototype on global energy system in global scale,
- g. Planning organization and management structures of this Project, with the roles of each participant in the project,
- h. Re-definition of the GEWS project,
- i. Construction of the Action Plan with time and task schedules,
- j. Building comradeship among participants,
- k. Planning fund raising for further development.
