**Letter of Support**

**To: Dr. Fouad M. EL-Harazin, President**  
Gaza International Foundation for Peace on Earth (GIFPE)  
Director of International Programs of The National Research Center (NRC)

**CC: Prof. Takehi Utumi**  
V.P. of Technology and Coordination of GUS  
Chairman of GLOSAS/USA

**Dear. Dr. Fouad M. EL-Harazin**

I would like to support the project of setup of a satellite and fixed wireless broadband technology in Gaza Strip/West Bank and used to connect universities, hospitals, libraries, local government agencies, elementary and schools and. This project is coordinated internationally by **Dr. Fouad M. EL-Harazin.**

Islamic University in Gaza Strip will be used as **Model Network Regional Hub (MNRH)** and as the secretariat of the consortium country using VSAT, microwave radio links and wireless local loops. Therefore;

One of the main objectives of the project are to establish a **Broadband Network Internet Technology "GazaNET"** to academic and economic development in Palestine, linked to Islamic University network as secretariat to medicine and public policy in Palestine and international participating universities. A second objective is to achieve "education and healthcare for all", a real peace anywhere, anytime and at any pace. Education and job skills are the keys in determining a nation's wealth and influence in Palestine. A third objective is to construct information and knowledge to be extended to the Palestinian society and to bridge the knowledge and digital gap that exist between ours and the rest of the world.

**Sincerely,**

**Dr. Eng. Mohammad A. Mikki**

**Associate Professor**
