

## Letter of Commitment

September 27, 2007

Dear Prof. Utsumi,

In accordance with your invitation, I would to join your proposed Project as a member.

I am an expert on Integrated Global Models for Sustainable Development, since I have been working for UESCO- EOLSS (Encyclopedia of Life Support System) as honorable theme editor.

I am original designer of FUGI (Futures of Global Interdependence) global modeling system that has been used by the UN organizations as a tool of projections of the world economy as well as policy simulations.

In this project, I am going to present the FUGI global modeling system as well as projections of the global economy, energy requirement and CO2 emissions up to 2020.

Sincerely yours,

大西 昭
