Dear Dr. Utsumi,

Thank you very much for inviting me to participate in your initiative of Global Socio-Economic Energy Environment Development (GSEED) Project. I would be happy to take part in this Project.

Our input-output multiregional model can be used for qualified analysis of mutual relations between national and regional economies as well as sectoral and regional interactions within the frames of the GSEED project.

I am looking forward to our cooperative work.

Prof. V. Suslov  
Deputy director IEIE
