Date: September 27, 2007

Dear Dr. Utsumi,

Thank you very much for inviting me to participate in your initiative of Global Socio-Economic Energy Environment Development (GSEED) Project. Surely, I would like to take part in this collaborative work. The mathematical models of Russian economics and analysis of investment project that we are developing in the Institute of System Analysis should be very helpful within the GSEED project.

I look forward to our cooperative work on GSEED project.

Prof. V. Livshits
