

BOĞAZIÇI UNIVERSITY
DEPARTMENT OF INDUSTRIAL ENGINEERING

Takeshi Utsumi, Ph.D., P.E.,
Chairman, GLOSAS/USA
43-23 Colden Street, Flushing, NY 11355-5913, U.S.A.

October 1 2007

Dear Prof. Utsumi:

This letter is to inform you that, as Boğaziçi University Industrial Engineering Department and SESDYN laboratory, we are interested participating in your Global Socio-Economic-Energy-Environment Development (GSEED) project. This is certainly an important and potentially useful project. I can personally contribute in building system dynamics simulation models and in systems thinking/system dynamics training activities.

We are looking forward to working with you in this project.

Truly yours,

Yaman Barlas, Ph.D.
Chair,
Industrial Engineering Department,
SESDYN laboratory.
